

# The European Commission's science and knowledge service

## Joint Research Centre

European  
Commission

# Other funding opportunities in wine innovation

**Nicholas Harrap – JRC Sevilla**

Anadia 19 June

# Introduction

- Have seen various types of funding related to:
  - H2020
  - ESIF
- Should also consider a wider range of funding opportunities
- Should also be aware of future novelties being discussed for the next programming period

# European Innovation Partnerships - Agri

- Pools different sources of funding including European Rural Development policy and H2020
- Focus group on Diseases and Pests in Viticulture
  - Inventory of pests and diseases
  - Take stock of current control methods
  - Explore solutions
  - Examples of good practice

# Life-long Learning Programme: R&I related to green energy and the environment in wine

## E-VitiClimate

Aims to train teachers and trainers on issues related to climate change and on different viticultural techniques to help producers adapt to climate change.

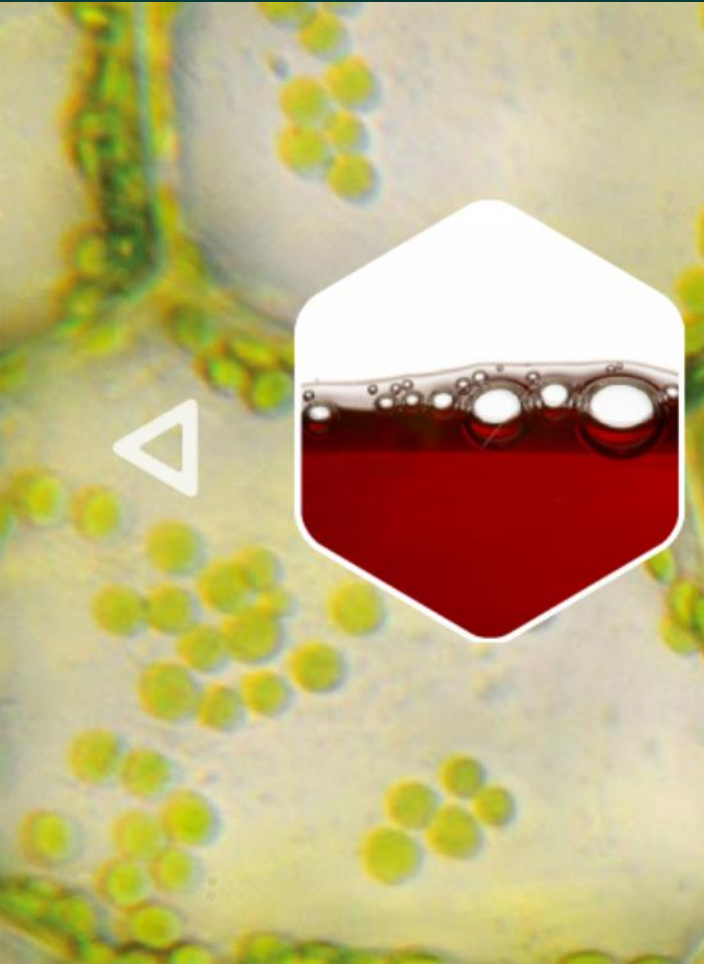

An innovative platform offers two modules to inform technicians:

Module 1 presents the climate change process globally, its effects on European vineyard and adaptation techniques (irrigation techniques, genetic adaptation)

Module 2 details the required adaptation to local ecology, examples and guidelines.

# Enterprise Europe Network

- Sensara (Logroño – Spain)
- Small biotech company selling nano-biosensors to the food and wine industries
- Now testing two portable analysers made by Biorealis, a high-tech company from Bratislava, Slovakia.
- Matchmaking through The Enterprise Europe Network, with some 600 partner organisations in more than 50 countries, matches SMEs with the right partners using databases and matchmaking events.

# Under DG Environment: LIFE13 ENV/ES/000776

## **LIFE VINEYARDS4HEAT (V4H)**

Vineyards for carbon footprint reduction: a sustainable strategy to use biomass for heat & cold in wineries.

The project aims to demonstrate the feasibility of an integral governance strategy to mitigate climate change, Vineyards Virtuous Circle (VVC).

Coordinator: Ajuntament de Vilafranca del Penedes, Spain

LIFE programme 2014-2020: <http://ec.europa.eu/environment/life/>

# Interreg Sudoeste

Eixo 2 - Competitividade das PME  
Fomentar a competitividade e a internacionalização das PME do sudoeste europeu  
8.400.000 €

Eixo 3 - Economia de baixo teor de carbono  
Contribuir para uma maior eficiência das políticas em matéria de eficácia energética  
7.300.000 €

Eixo 4 - Luta contra as alterações climáticas  
Prevenir e gerir os riscos de maneira mais eficaz  
7.200.000 €

## A convocatória estrutura-se em duas fases!

- Primeira fase deadline- **21 setembro 2018**

Estas candidaturas serão co-instruídas pelas Autoridades Nacionais e pelo Secretariado Conjunto

- Segunda fase deadline- **março/maio de 2019**

- **Webinars informativos**

Sessões em Português (04/07; 11/07; 18/07):
