

Innovation Radar

TSSP for Industrial Modernisation – 4th Steering Committee Meeting

27 November 2018

Bilbao, Spain

Ana-Maria GRIGORE

Policy Officer

Industrial Technologies – Strategy

DG Research and Innovation

European Commission

What is it?

- A data-driven methodology to deliver intelligence about FP-funded innovations and innovators, and their market readiness.
- Also aims at helping innovators to bring their innovations into the market and to identify their needs
- Started in 2014 with DG CNECT projects. Now the IR is expanding to other Horizon 2020 parts, including the NMBP Programme
- The 5 IR Prizes will be awarded in December 2018 during the ICT 2018 event:
<https://ec.europa.eu/futurium/en/innovation-radar-prize>

IR going public

- Launched in April 2018
- <https://www.innoradar.eu/>
- Not a stand-alone initiative => Aim is to provide easy access to innovations supported by EU funding and the innovators behind them.
- 21 Members states signed so far the Innovation Radar declaration to demonstrate their commitment to use it to promote innovative excellence in their countries.
- **JOIN the discussion** with MS/regions activities and other external stakeholders such VCs, Corps, RTOs, BAs, etc.
- The tool is still under construction. Feedback is welcome!
