17 November 2020 10:00-13:00(EST) Side Event on STI for SDGs Roadmaps

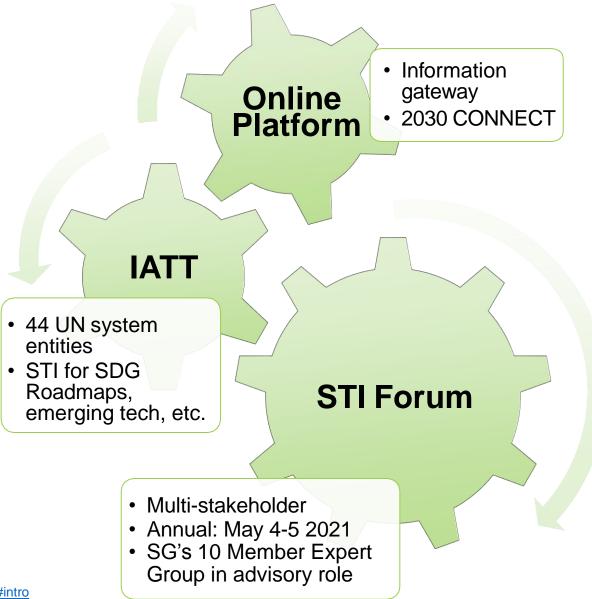

The Achievements of the UN Working Group for STI Roadmaps for the SDGs

Michiharu Nakamura

UN Secretary's General 10-Member Group to Support the Technology Facilitation Mechanism

The "Technology Facilitation Mechanism" (TFM) has three components:

- 1. A United Nations Interagency Task
 Team on Science, Technology and
 Innovation for the SDGs (IATT),
 including the 10-Member Group of
 representatives from civil society, the
 private sector and the scientific
 community
- 2. A collaborative Multi-stakeholder Forum on Science, Technology and Innovation for the SDGs (STI Forum)
- 3. An **online platform** as a gateway for information on existing STI initiatives, mechanisms and programs

STI for SDGs Roadmaps workstream and progress

2016

- Suggested by 10MG expert group
- Background IATT research

2017

- Stocktaking
- Establishing program of work
- STI Forum Chairs: Kenya, USA

2018

- Guidebook (initiated)
- Online Platform prototyped
- Expert consultations (3)
- STI Forum Chairs: Japan, Mexico

2019

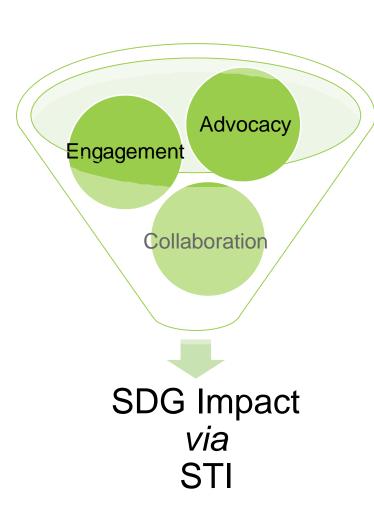

- Guidebook (draft)
- Country pilots
- Connect to Online Platform
- Expert consultations (2)
- STI Forum Chairs: Barbados, Czech Republic

2020

- Guidebook (1st edition)
- Country pilots
- Online Platform (2030 CONNECT)

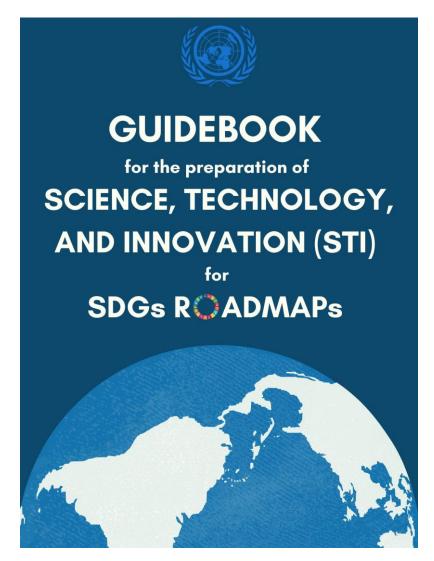

- G20 Osaka (2019.06)
- "Guiding Principles for the Development of STI for SDGs Roadmaps"
- TICAD7 (2019.08)

What are STI for SDGs Roadmaps?

- Implementation focused instruments
- Vary by context and level subnational to global
- Connect STI 'demand' to 'supply'
- Deploy solutions based on existing, new and emerging technologies
- Multi-stakeholder approach with emphasis on equitable participation
- Identify concrete collaboration, financing, capacity, international cooperation interventions
- Stimulate global search for effective solutions
- Monitor and evaluate the progress of STI for SDGs

The Guidebook for the Preparation of Science, Technology and Innovation for SDGs Roadmaps

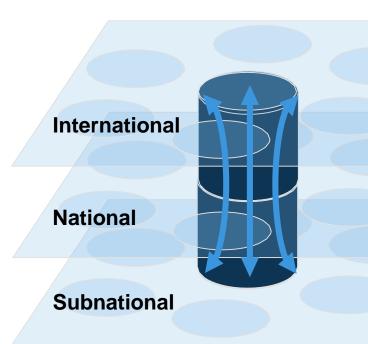

Intersection of Development, STI and SDG Plans and Key Actors **National Development Plan** President Office Ministry of Planning Ministry of Finance Statistical Office STI Plan **SDGs Plan** · Universities, Civil society Academia Lead agency on SDGs (e.g. Development • Ntl. STI Council foreign, planning) Industries. partners Line ministries (e.g. (health, Ministry of S&T entrepreneurs agri, energy) Ministry of Industry Local Governments Ministry of ICT Development Cooperation

The Framework of STI for SDGs Roadmaps

Process flow of six key steps in the development of STI for SDGs roadmaps

Three levels of STI For SDGs Roadmaps

- Data, evidence
- Intl. expertise
- Good practices
- Needs and gap assessments
- Monitoring progress
- Planning & matching resources
- Private initiatives
- Local and indigenous knowledge

Global Pilot Programme on STI for SDGs Roadmaps

1st Phase Pilot Programme

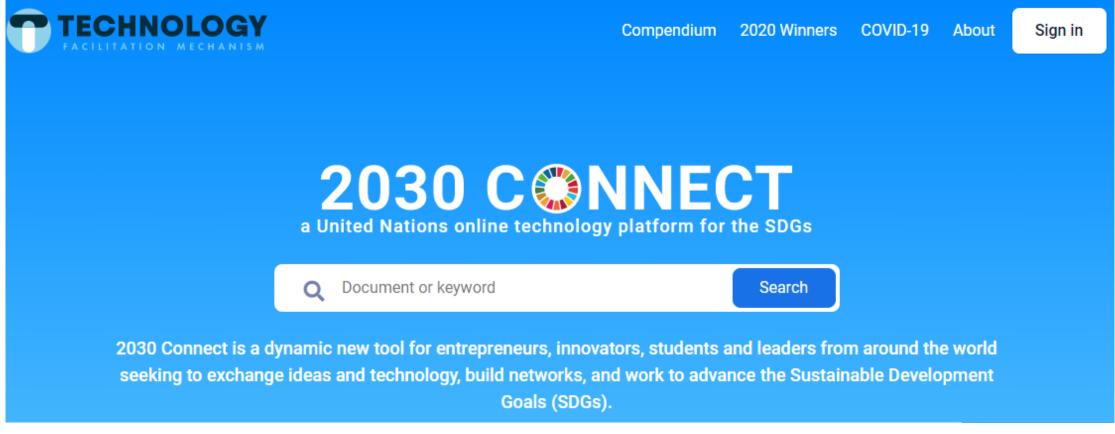

- Pilot Countries: Ethiopia, Ghana, India, Kenya, and Serbia

- Partner Countries: Japan and the European Union

Objectives:

- Test out the guidebook on building STI for SDGs Roadmaps as a policy-making and communication tool for Member States;
- Build capacity for and scale up adoption of the Member States' STI for SDGs Roadmaps;
- Promote good practices, knowledge sharing, peer learning, international cooperation and partnerships on design and implementation of such roadmaps;
- Maximize opportunities and mitigate risks of STI and frontier technologies to accelerate achievement of the SDGs; and
- Leveraging and mobilizing resources

Online platform: 2030 CONNECT

Three pillars for international STI collaborations for the SDGs

1. Build country STI capacity

2. Boost international STI flows

3. Broker STI coalitions

- Develop human, institutional and policy capabilities of key STI actors, build STI infrastructures
- Help design STI for SDGs Roadmaps
- Support market and non-market flows of STI across countries
- Support cross-country STI collaboration to address local challenges
- Mobilize ambitious STI collective actions to address global critical gaps
- Transform global STI system toward acceleration of SDGs

Lessons learned from COVID-19

- Preparedness for pandemic risks –resilient society
- Speed of science, technology, innovation, and delivery
- Leveraging digital technologies and data
- Open science for global public goods
- Transdisciplinary approach
- International STI cooperation
- Science-policy-society interfaces

Thank you for your cooperation
