Interreg Europe : fostering interregional cooperation

Katharina Krell & Astrid Severin

Thematic expert | Policy Learning Platform

k.krell@policylearning.eu & a.severin@policylearning.eu

Etienne Verhelle

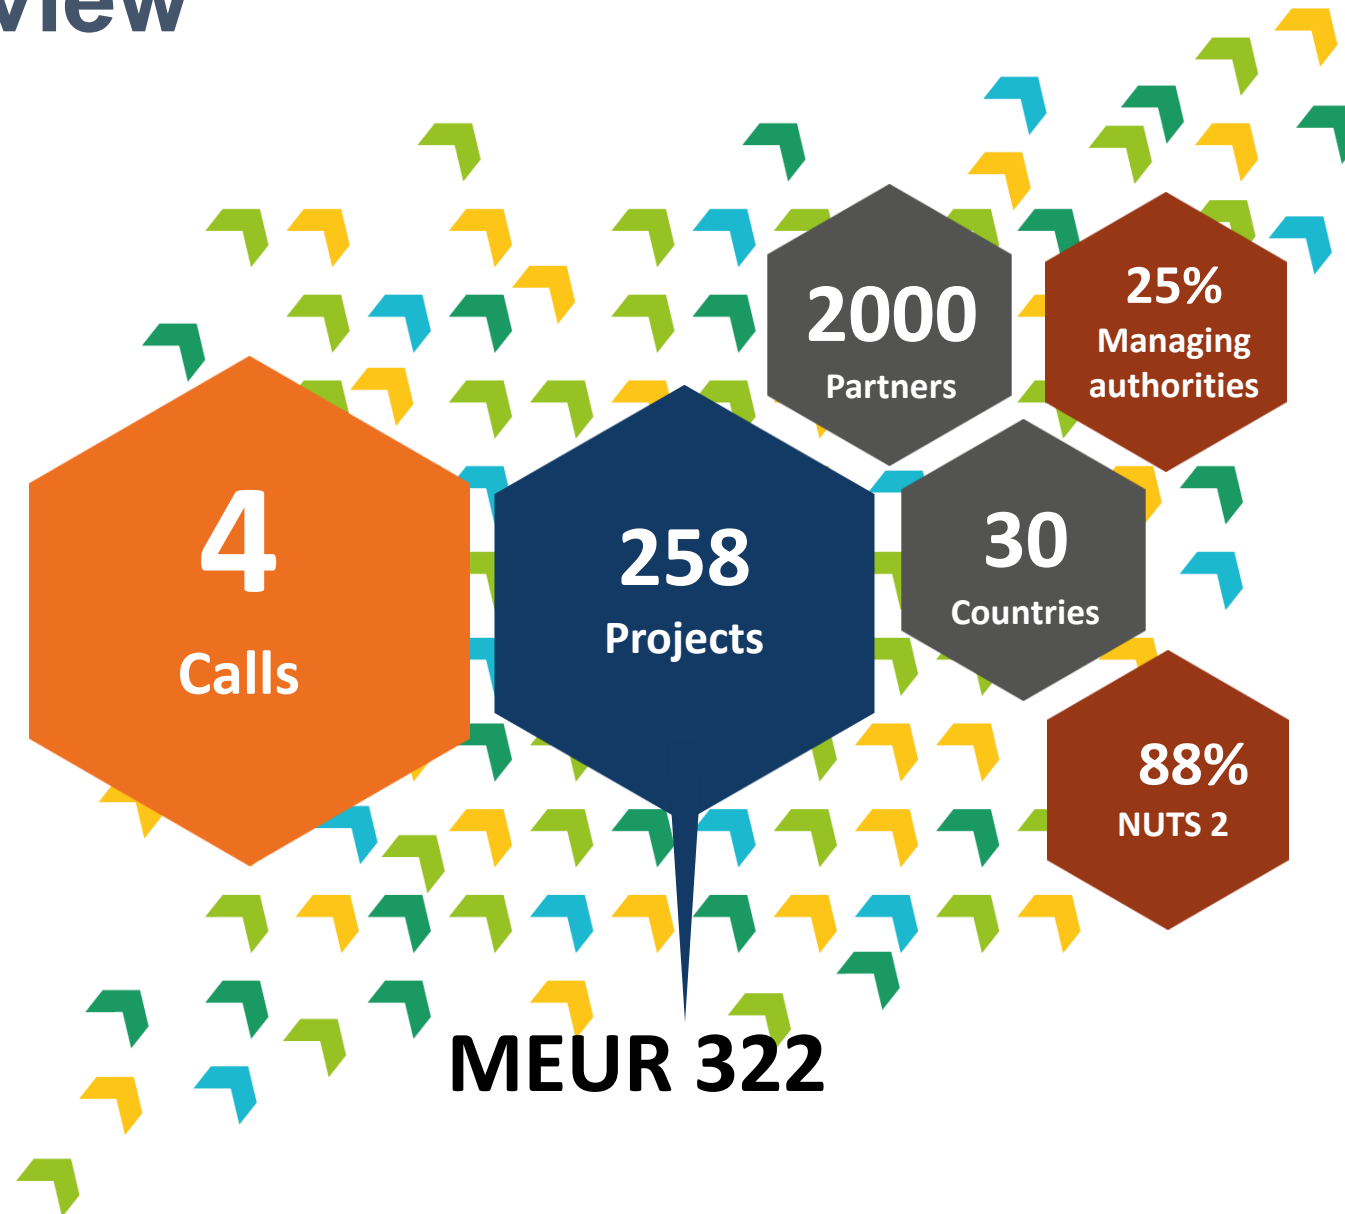

Policy Officer | Interreg Europe Joint Secretariat

e.verhelle@interregeurope.eu

6 February 2020 | Smart grids in the new programming period, Brussels

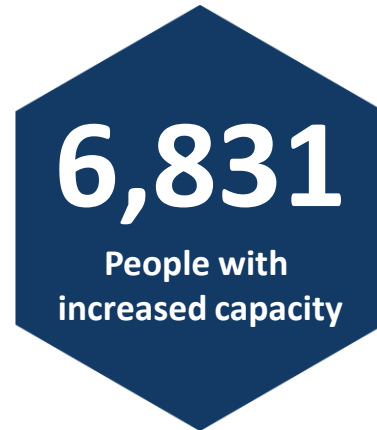

Overview

4. Update programme results

Outputs achieved (validated as of November 2019)

130 projects have finished phase 1

4. Update programme results

Improving policies (validated as of November 2019)

Collaboration with the Joint Research Centre

JS at Smart Specialisation Platform steering committees:

- S3P for Industrial Modernisation: Valencia 2017, Lapland and Bilbao 2018, Warsaw 2019.
- S3P on Agri-Food: Florence 2016 and Seinajoki 2018.

Joint event S3P-Industry and IR-E projects (Lapland 2018)

JRC speakers in different PLP thematic workshops and vice versa:

- [Enhancing Rural Innovation Capacity and Performance](#), Hamburg 2018.
- [Energy Efficiency in Buildings](#), Florence 2018.
- [Supporting the effective uptake of Cohesion Policy funds in energy](#), Budapest July 2019

PLP participation at the Peer eXchange and Learning workshop (Perugia 2019)

What about the future?

May 2018: Interreg Europe not present in the EC draft proposal for 2021-2027

Since then: negotiation with EP and Council who asked for Interreg Europe to be back

To be continued.... (finalisation of regulation, budget decision)

PLP services

- **13 peer reviews (7 done)**
- **10 matchmaking sessions**
- **39 helpdesk advices**

- **16000 members in community of practitioners**
- **15 thematic workshops mainly for projects**
- **11 webinars for policymakers**

- **54 policy briefs on project results**
- **33 stories on good practices**
- **144 articles on policy trends**

- **1000 expert validated good practices**

Interreg Europe Projects

Smart energy transition to upgrade energy performance

Aim: Improve energy performance of regions through enhanced policies on smart grids, including energy management tools and consumer behaviour change

interregeurope.eu/set-up

Policy instruments for energy self-consumption in buildings

Aim: Promote new policies, or improvement of existing policies, to support the integration of RES in buildings for self-consumption.

interregeurope.eu/enerselves

Electric Vehicles for City Renewable Energy Supply

Aim: Support policies for EV uptake related to energy or mobility taxations, parking and charging issues, energy regulations and grid connection

interregeurope.eu/evenergy

Promotion of e-mobility in EU regions

Aim: integration of e-mobility in regional strategies, plans and programmes, as well as incentives, awareness raising, and support for research and innovation.

interregeurope.eu/prometeus

Policy Learning Platform

Policy briefs

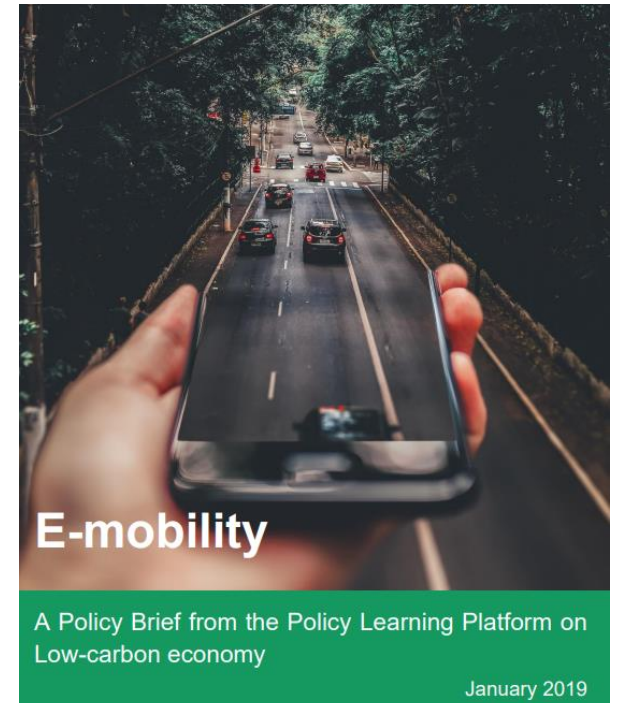

- [e-mobility](#)
- [Renewable energy communities](#)

Webinars

- [Supporting e-mobility in European regions and cities](#)
- [The impact of transport electrification on the grid](#)

Good practices

- 100s of expert approved practices ready to learn from

How can we help right now?

Apply for a 2-day peer review to help program smart grid measures in your next OP!

- Policy experts and practitioners from other regions in Europe are invited by Interreg Europe to visit you and consult you
- The call is continuously open, the application is un-bureaucratic, only 2 pages.
- <https://www.interregeurope.eu/peer-review/>

Check out the Good Practices Database!

- <https://www.interregeurope.eu/policylearning/good-practices/>

Thank you!
