Working Group H2020 for RIS3 - objectives

Objective: to optimise S3 implementation building participants capacities in three directions:

Improving capacities of R&I systems

Integrating multi-level perspective in S3

Design and piloting capacity building activities

Working Group - approach

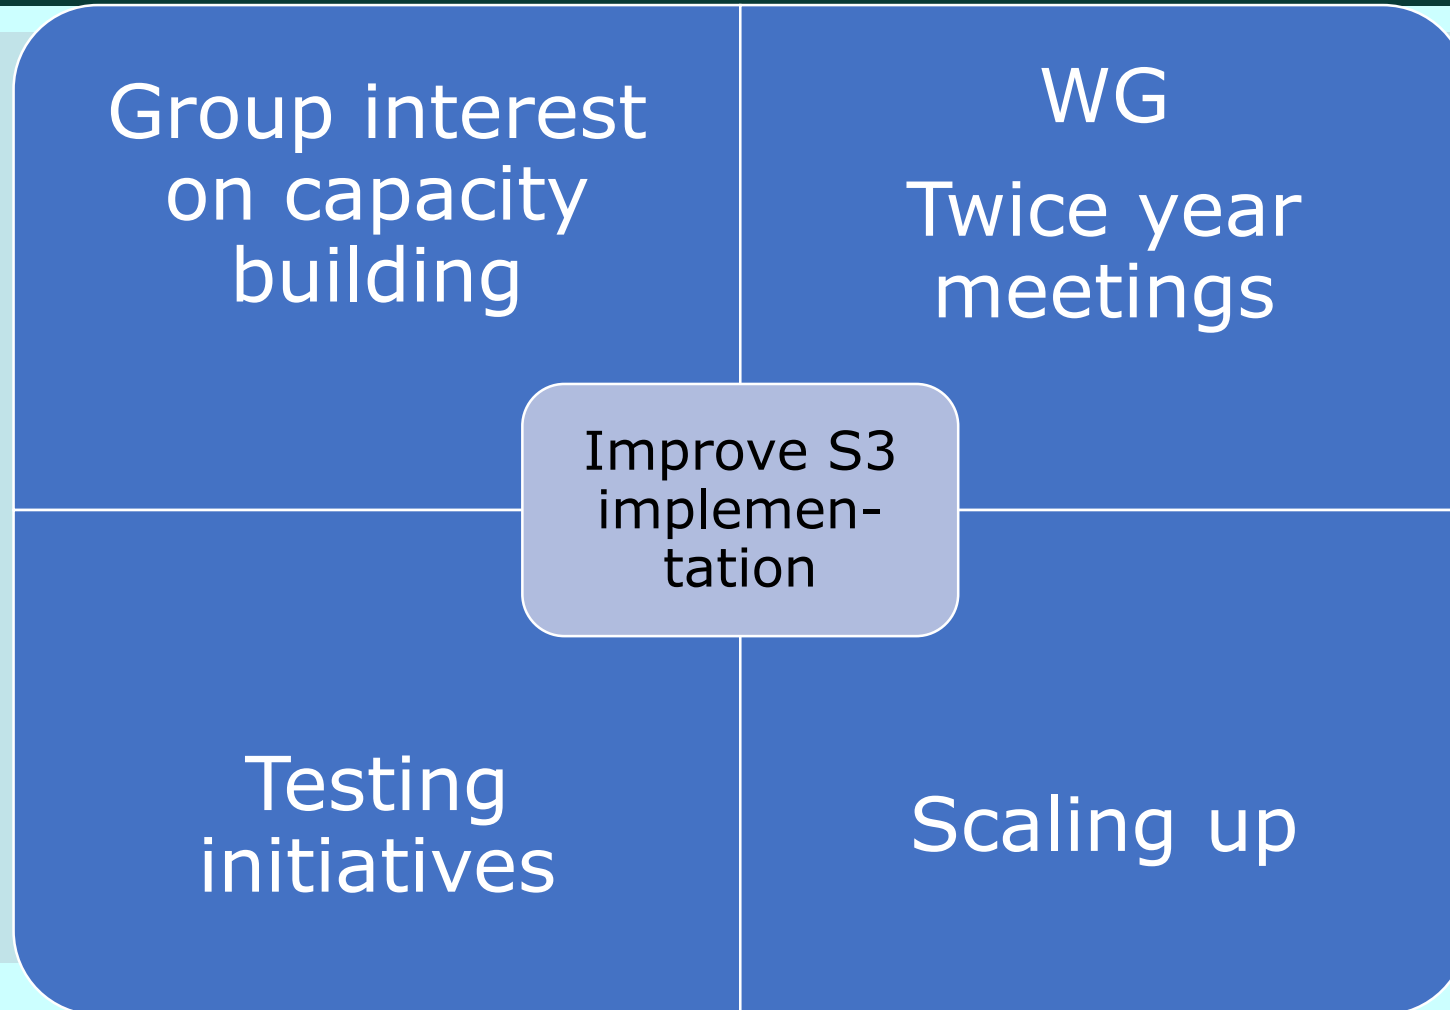

Prioritise capacity needs

Explore support tools

First steps to build international networks and widening participation

Set agenda and workplan for WG meetings

Working Group – Set-up

Pilot 2 – PPP and internationalisation – The case of Circular Manufacturing (CM) in Portugal

Circular economy and the new EC

Need for critical mass

Need for new tools for thematic cooperation across EU funding instruments

Lessons for CM in Portugal and for other thematic areas and territories (codifying lessons)

Key elements of the pilot and of the day

- Support networking between public and private actors regionally, nationally and EU-wide.
- Data driven: H2020 data, European PPPs, national funding data, ERDF project database,...
- Different types of synergies: strategic, programming, project level
- Process outcomes: guidance/navigation tool/criteria
- Content outcomes: input for shaping match-making in Spring 2020

Obrigado!
