# Working group “Understanding and Managing Industrial Transitions”

## The Bulgarian perspective

### 9 July, Seville

*Directorate Central Coordination Unit  
Council of Ministers Administration*

ЕВРОПЕЙСКИ СЪЮЗ

# The 2021-2027 Programming period

Main priority areas:

- science and innovation for smart growth and economic transition
- education and training for skilled workforce
- business environment and digitalization

Along with .....

- “traditional” infrastructure
- strengthening administrative capacity - e-governance
- enhanced regional perspective

## Where we are

- ❖ Sofia tech park
- ❖ Centres of Excellence, Centres of Competences - on-going investments

And more to come:

- ❖ Regional Innovation Centres

*The perspective - all “packaged” into a network creating a whole ecosystem*

## The way ahead

### Need for

- ❖ reforming the approach of policy making, organizing and regulating the R&D and innovation system

### Ensuring

- ❖ political leadership of the process
- ❖ high level of professionalism
- ❖ synergies and complementarities
- ❖ enhanced collaborations
- ❖ long-term planning and sustainability of financial resources
