# S3 Implementation Handbook

[http://s3platform.jrc.ec.europa.eu  
/s3-implementation-handbook](http://s3platform.jrc.ec.europa.eu/s3-implementation-handbook)

Drawn on empirical evidence

Targeted at policy-makers and reg. devt professionals

Addresses 5 key milestones:

1. The Entrepreneurial Discovery Process (EDP) cycle: from priority selection to strategy implementation
2. Good governance: principles and challenges
3. From priorities to projects: selection criteria and selection process
4. Transnational cooperation and value chains
5. Monitoring

# Governance: Aspects explored

National

## Strategic Level

Less than 50% of regions have a functioning strategic system

## Management Level

- Administrative obstacles, lack of skills, insufficient political commitment

## Bottom-up level

- Challenges
- Lack of sustained interest

## Monitoring

### Massive Open Online course on Monitoring Smart Specialisation

The JRC has identified the key aims and characteristics of monitoring S3 and consolidated such knowledge into a free [MOOC \(Massive Open Online Course\)](#).

The MOOC is open to anyone interested in monitoring Smart Specialisation Strategies and knowledge-based regional development in particular. Specific audiences are:

- Civil servants working on regional development at the regional, national and European level
- Students or researchers interested in regional development, or research and innovation policies.
- Consultants in regional development or research and innovation policy

# Thank you!
