The European Tourism Manifesto

In order to formulate effective tourism policies, a holistic European approach is needed taking into account the multiple impacts of the sector as well as the wide spectrum of stakeholders involved or affected by tourism.

This was recognised by the Treaty of Lisbon, which by article 195 of the TFEU gives to the European Union the responsibility to promote the competitiveness of the European tourism sector by creating a favourable environment for its growth and development and by establishing an integrated approach to the travel and tourism sector.

European public and private tourism stakeholders have united to present this European Tourism Manifesto for Growth & Jobs, a document which highlights the EU policy priorities for the sector in the coming years.

Good Governance

- 16. Facilitate access to <u>smart and sustainable EU funding</u> for tourism stakeholders in relation to growth and job creation.

Sustainability
