Smart Specialisation: Thematic S3 Platforms (TSSP) and Macro-Regional Strategies

Dr. Ales Gnamus

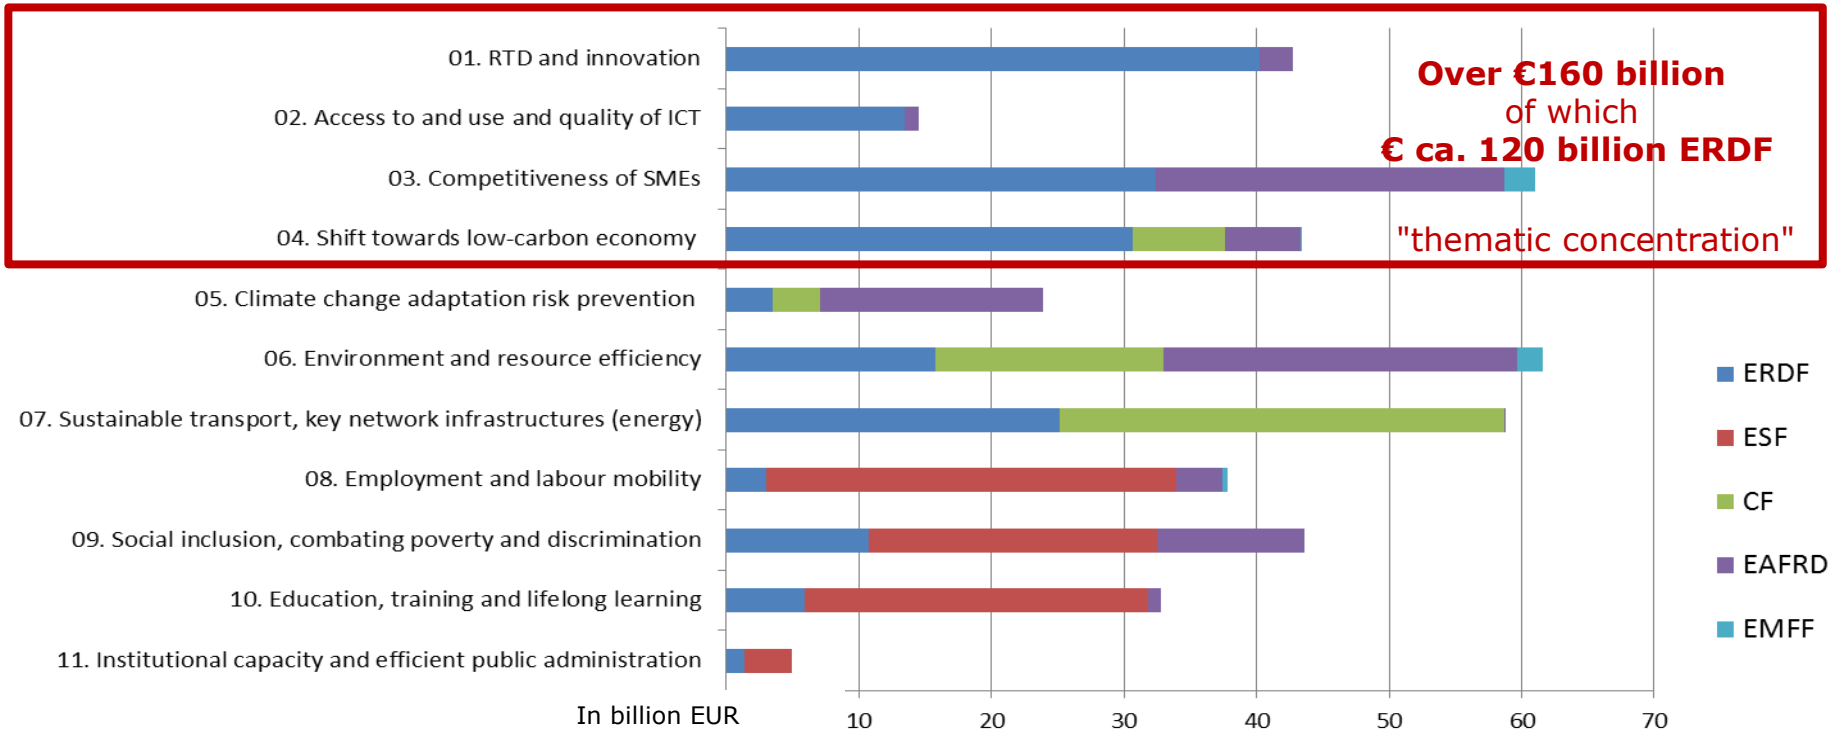
"Knowledge and Efforts for Sustainable Growth in the Marine and Maritime Sectors in the Northern Adriatic"

Piran, 21 March 2017

European Commission

ESIF programming 2014-20: State of Play

- EUR 451 billion of ESIF + EUR 183 billion of national co-financing
- 456 national (thematic) and regional and 79 Interreg cooperation programmes
- Concentration on 11 Thematic Objectives



Source: Final ESIF partnership agreements as of December 2014
Soon all open data available at: https://cohesiondata.ec.europa.eu/

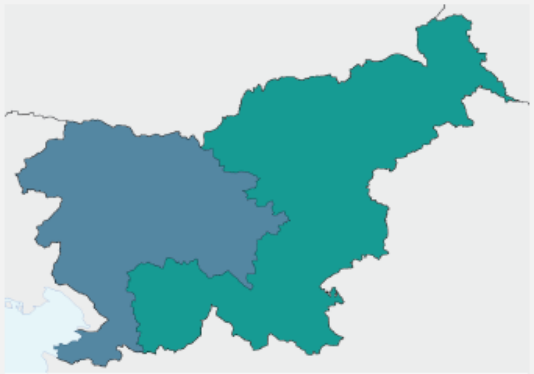
ESI Funds Country Factsheets:

Slovenia

EUROPEAN STRUCTURAL AND INVESTMENT FUNDS[1]

SLOVENIA

With a budget of **EUR 454 billion** for 2014-2020, the **European Structural and Investment Funds** (ESI Funds) are the European Union's main investment policy tool. The ESI Funds combine five Funds: **European Regional Development Fund** (ERDF); **European Social Fund** (ESF); **Cohesion Fund** (CF); **European Agricultural Fund for Rural Development** (EAFRD); and the **European Maritime and Fisheries Fund** (EMFF). Slovenia, together with 19 other Member States, will also benefit from the **Youth Employment Initiative** (YEI).

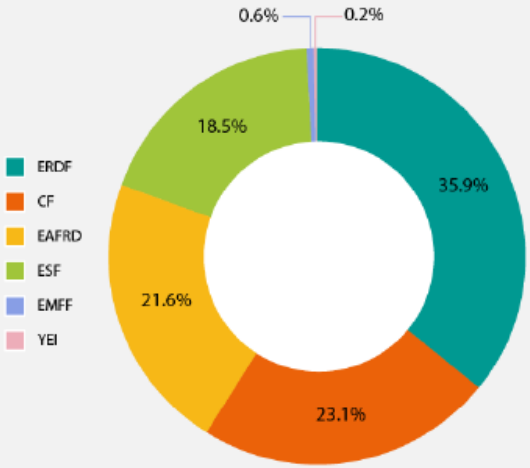


Categories of regions for the ERDF, ESF and EAFRD 2014-2020
- Less developed regions (GDP/head < 75% of EU-27 average)
- More developed regions (GDP/head >= 90% of EU-27 average)

Through its national operational programme, Slovenia has been allocated **EUR 3.87 billion** from ESI Funds over the period 2014-2020. With a national contribution of **EUR 1.02 billion**, Slovenia has a total budget of **EUR 4.9 billion** to be invested in various areas. These range from **innovation** and **competitiveness** of enterprises to support for **SMEs** and **agriculture** and **fishery** holdings, the **low-carbon economy**, **transport**, **environment**, **sustainable employment**, **social inclusion**, **education** and **public administration**.

ESI FUNDS BUDGET FOR SLOVENIA (2014-2020)

- **EUR 1.39 billion** through the **ERDF**
- **EUR 895 million** through the **CF**
- **EUR 838 million** through the **EAFRD**
- **EUR 717 million** through the **ESF**
- **EUR 25 million** through the **EMFF**
- **EUR 9 million** through the **YEI**



European Commission

SMART SPECIALISATION PLATFORM

R&I Strategies for Smart Specialisation (RIS3/S3)

= Economic Transformation Agendas

aiming at using inspired R&I for producing competitive economic return and lasting welfare for the society!

NOT ONLY FOR THE BEST! Innovation is multi-dimensional & includes basic inventions or development of applications → at minimum RIS3 transform less-advanced regions into good followers! Regions need to seek the concentration of resources around the original / unique area of knowledge expertise!

Source: D.Foray 12/2011

What is Smart Specialisation?

= **fact-based**: **all assets + capabilities + bottlenecks** in a region, incl. external perspective, cooperation potential, global value chains

= no top-down decision but **dynamic entrepreneurial discovery process** uniting key stakeholders around shared vision

= **all forms of innovation**, not only technology-driven, existing / new knowledge

= **ecosystem approach**: creating environment for change, efficiency of institutions

= **differentiation**: **focus on competitive advantages**, potential for excellence, emerging opportunities, market niches, at the level of activities - granularity

= **concentration of resources** on priorities, problems and core needs, for critical mass/critical potential

= **synergies** across different departments and governance levels (EU-national-regional); cross-sector/technology links – NO Silos Thinking!

= **place-based economic transformation:** rejuvenate traditional sectors through higher-value activities; aiming at developing a strategic approach to territorial development

What's new in the S3 approach?

S3 is NOT a "Neutral" Policy

- S3 does not act only through horizontal measures that cut across the whole economy
- It requires policy makers to take risks associated with the selection of a limited number of activities to support

Choices Based on Entrepreneurial Knowledge

- Centrality of the interactive process of knowledge exchange and creation = the *Entrepreneurial Discovery Process (EDP)* - No omniscient planner!

- Policy makers will rely on and exploit the fundamental knowledge of the local entrepreneurs

Hausmann & Rodrik 2003; Foray & Goenaga 2013; Foray 2015

S3 is for all regions and supports different pathways to innovation

Excited goblins (e.g. ICT start-ups)

Video: The Kingdom of Smart
http://ec.europa.eu/regional_policy/videos/index.cfm?LAN=EN

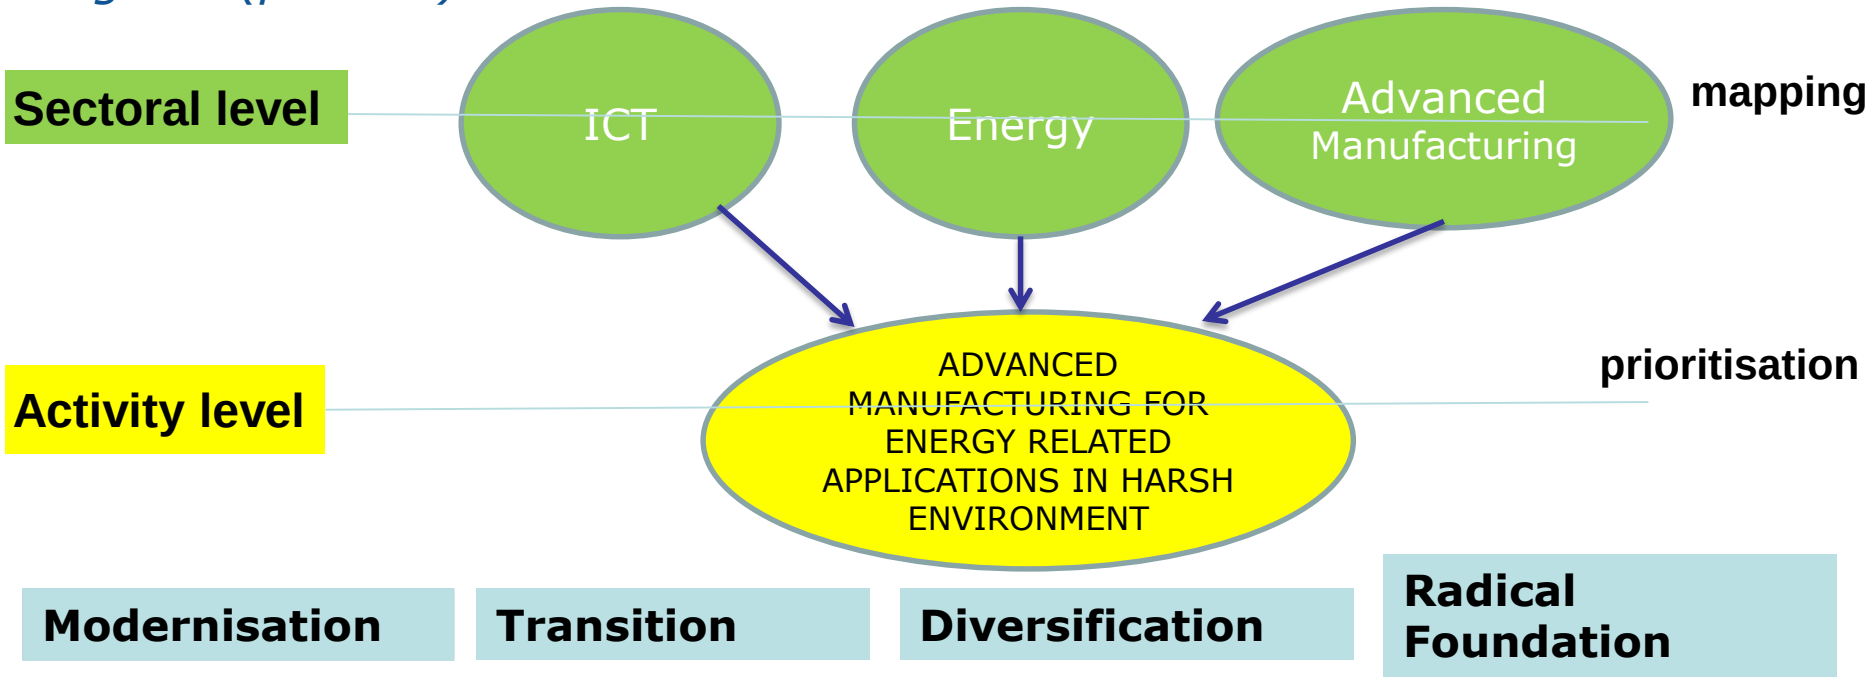
Sleeping giants (e.g. agri-food)

Hungry dwarves (SMEs)

S3: The Notion of Specialisation

S3 is about developing new specialities based on regional concentration of knowledge, competence and market potentials (dynamic)

S3 is NOT to be understood as a sector specialised or relative to other regions (passive)



S3 2014-2017 - Is the glass half-full or half-empty?

- **Promising uptake in the policy-making processes**
- **Growing community**
- **Developing interest in the methodology** (policy framework)

But …

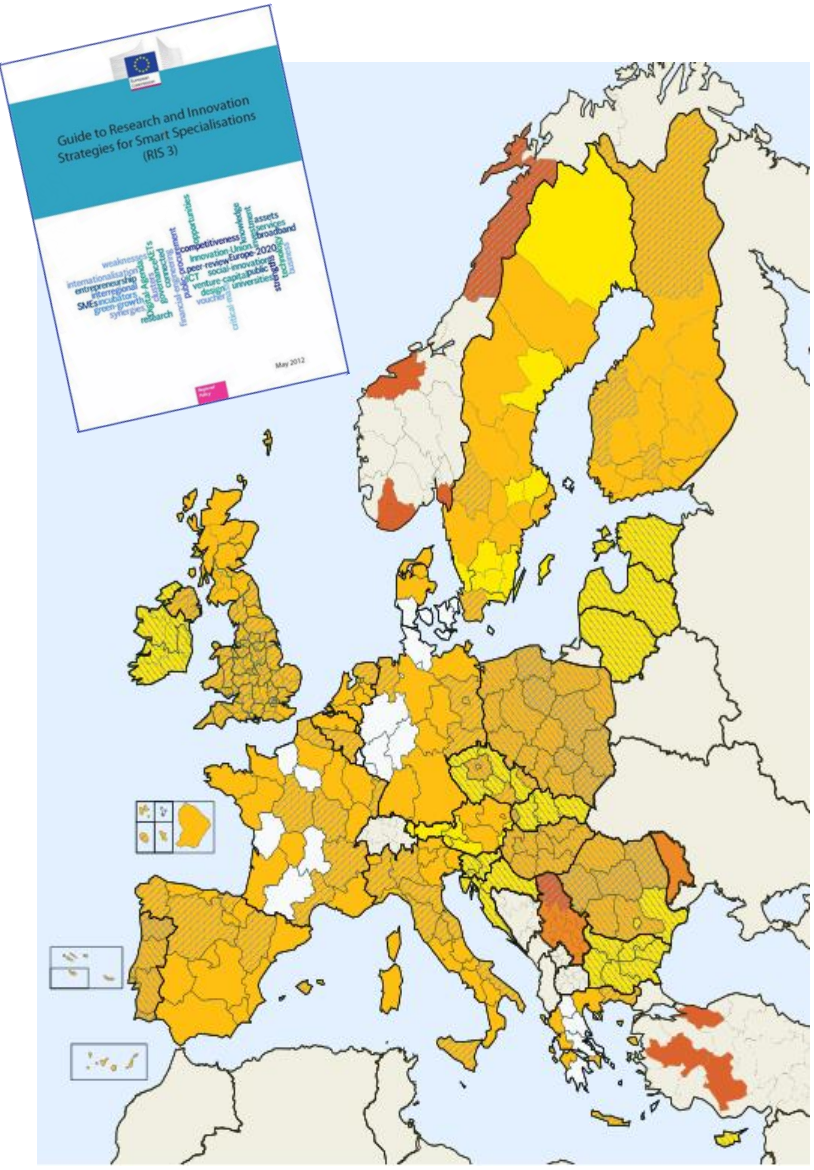
- **Final delivery of changes still questionable** (concrete impact on policy acts: calls, administrative behaviour, etc.)
- **Inefficient cross-policy coordination** and cross-departmental communication at EU, national, regional and local levels
- **Low trans-regional learning and market opportunities**
- **Lack of coordination among existing resources,** incl. public & private resources at EU, national, regional & local levels

Hence…

- **Thematic S3 Platforms (TSSPs)**
- **Enhance Macro-regional collaboration**

European Commission

Smart Specialisation Platform: Key Data



Created in 2011 to provide science-based professional advice to EU national/regional policy-makers for the establishment and implementation of their S3, make better use of the European Structural and Investment Funds (ESIF) and thus contribute to the Europe 2020 goals.

Membership:179 regions & 20 countries

Open to the Non-EU regions/countries (so far 9/2 Non-EU regions/countries registered)

Strong endorsement by national/regional policy makers: high satisfaction rankings

High "loyalty rate": >50% of regions attending numerous S3P WSs

Strong political endorsement at EU level: **EC** (Hahn/Cretu), **EP** (Winkler/Buzek/Van Nistelrooij), **Council** (Van Rompuy/Tusk), **CoR** (Markkula)

Main activities of the S3 Platform

Support to lagging regions & Synergies ESIF-H2020 "Stairway to excellence"

S3 Knowledge Base: Guidance and Analysis, RIS3 Guide, DA Toolbox, S3 publications, S3 Seminar Series on Territorial Development

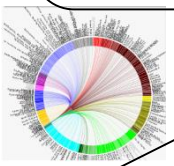
S3 Website & Newsletters

S3 Interactive web tools: Eye@RIS3, etc.

Trans-national Peer Reviews (in total 75 regions/countries)

SMART SPECIALISATION PLATFORM

Peer eXchange & Learning - thematic focus on actors, process, common features and priorities



RIS3 assessment and support to REGIO desks

Support to the EU Macro-Regional Strategies & Alignment of innovation roadmaps

DANUBE REGION strategy · EUSBSR EU STRATEGY FOR THE BALTIC SEA REGION · EU Strategy for the Adriatic and Ionian Region · EUSALP

Focused approach on Value Chains - Thematic S3 Platforms (TSSP): Energy, Ind. Modernisation , Agri-Food + more to come…

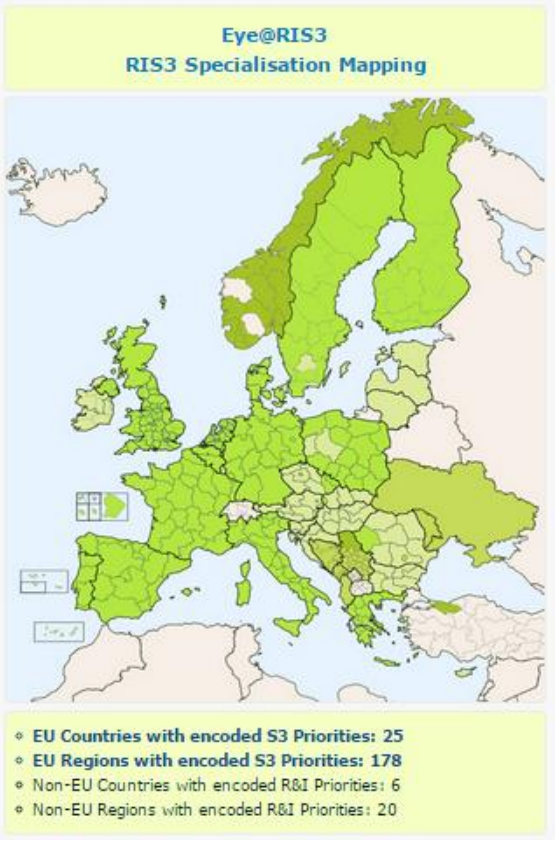
Guidelines for adding priorities to the Eye@RIS3 tool



http://s3platform.jrc.ec.europa.eu/map

European Commission

Thematic Smart Specialisation Platforms (TSSPs)

S3 as coordinating mechanism to align efforts…

- Strategic focus on the "Entrepreneurial Discovery Process" of opportunities for co-investment in priority areas based on RIS3 mapping & analysis
- Objective: Support pilot activities towards aligned roadmaps and project pipe-lines leading to coordinated joint investments
- Governance: joint initiative of pro-active motivated regions (like Vanguard Initiative) supported by thematic policy DGs
- Composition: not only immediate competitors, but potential cooperation partners along value chains!

Foster opportunities for regions/MS to **team-up around value chains!** (Horizon2020, COSME and INTERREG Europe can support networking costs)

S3 Value Chain Assessment - Project stages:

Learn
- Interregional knowledge building

Connect
- Key stakeholder search and matching / brokerage services

Demonstrate
- Advisory services
- Support to deployment of innovative products / services

Upscale
- Financing, communication, documentation & knowledge management

European Commission

Ad. Learn (based on EYE@RIS3 database of S3 priorities)

STEP 1: ANALYSIS OF OVERLAPS IN EU LEVEL PRIORITY AREAS (BASED ON DATA ENCODED IN THE EYE@RIS3 DATABASE)

Categories		VI PRIORITIES (167)		EU28 PRIORITIES (1260)	
		count, n	%	count, n	%
1	AGRO-FOOD RELATED	29	17%	272	22%
2	KETs RELATED	59	35%	267	21%
3	HEALTH RELATED	38	23%	192	15%
4	ENERGY RELATED	32	19%	178	14%
5	DIGITAL AGENDA RELATED	8	5%	144	11%
6	ENVIRONMENT RELATED	15	9%	59	5%
7	CREATIVE/CULTURAL RELATED	16	10%	48	4%
8	TRANSPORT AND LOGISTICS RELATED	13	8%	38	3%
9	SOCIAL INNOVATION, ORGANISATIONAL MODELS, OTHERS	5	3%	25	2%

NOTE:

This step focused on the **identification of potential overlaps in S3 related priorities** indicated by the regions as well as their importance at the EU28 level.

Most frequent S3 priorities are:
KETs, Health, **Energy**, ICT and **Agri-Food**.

European Commission

Thematic S3 Platforms

Joint initiative engaging DGs REGIO, ENER and JRC and profiting from JRC's multidisciplinary competences on energy!

Why Energy: among the most popular S3 priorities across Europe!
>2/3 of EU territories choosing at least one energy-related priority.

Aim: **- Improving trans-regional S3 energy cooperation & learning**

- Enhancing cross-sector coordination among the existing energy related policies at the EU, national, regional and local levels (linking innovation and energy 'worlds'!).

- Aligning the funding - support the optimal and effective uptake of the Cohesion funding for energy in coordination with other national/regional & private funding sources.

- S3: Help implementing Energy-related S3 priorities and support their alignment with EU priorities and energy innovation at all levels.

European Commission

VANGUARD INITIATIVE
New growth through smart specialisation

The Vanguard Initiative

http://www.s3vanguardinitiative.eu

VI aims at generating solutions in the field of Advanced Manufacturing (ADMA) which are:

- more relevant (led by company demand and user needs)
- better (most valuable EU partners are on board)
- faster (EU-wide network of regional contacts reaching all important actors) and
- more sustainable (anchored in value chains).

VI's new growth through S3 is driven by a political commitment made by regions to use their S3 to boost new growth through bottom-up entrepreneurial innovation and industrial renewal in European priority areas. The political leadership in every partner region has undertaken this commitment by signing the Milan Declaration on Joining Forces for Investment in the Future of Europe.

VI's main objective is to promote EU-wide, cross-border and cross-sector industrial ADME value chains. It does so by setting-up and embedding a structural and tailored support system, combining the strengths of public and private actors in the ecosystems of participating regions, unlocking the potential and increasing performances of SMEs.

VANGUARD INITIATIVE

NEW GROWTH THROUGH SMART SPECIALISATION

VANGUARD INITIATIVE
New growth through smart specialisation

Ambitions | Partners | Pilot Initiatives | Activities | Contacts

VI focus is on catalysing joint investments in product-driven demonstration pilots (specific applications, products or processes)

upscale

learn	• developing a scoping paper • mapping questionnaire • Identify lead regions and actors
connect	• matching events for complementary partners • developing demonstration cases
demonstrate	• networked demonstration • pilot lines and first-of-a-kind factories (TRL6-8) • Generation 'n', 'n+1' and 'n+2'
commercialise	• launch of new ventures and start-ups • new value chains (TRL 9)

Enhance Macro-regional Collaboration

JRC's support to the MRS

The European Commission's science and knowledge service provides support to individual regions and to MRS in order to:

- boost smart, sustainable and inclusive economic growth and job creation
- Contribute to the objectives of Europe 2020 strategy
