7th Century:
North Sea (or
the Frisian Sea)

It was the Frisians who
reinvented useful
money, and taught their
ideas to the Franks
under Charlemagne.

Water in the Circular Economy

- “Water is the single most important shared resource across all supply chains, and wastewater is the largest untapped waste category—as big as all solid-waste categories taken together—it is the natural starting point for the circular revolution.”
- (Stuchtey, McKinsey company1).
