

CONTRIBUTION OF THE NATIONAL LEVEL TO THE PREPARATION OF S3 IN FRENCH REGIONS

Strasbourg, 3-4 december 2012

Mickaël VAILLANT, DATAR

Moving from RIS to S3

- Upgrading RIS / a new logic?
- Starting with RIS as a whole :
Positive results / Limits of the exercise
- Conditions to go from RIS to S3

Current actions of the national level on S3

- What we don't need...
 - Not harmonization
 - Not a new and compulsory national methodology
 - A national S3?
- What we need...
 - A common understanding of S3
 - Multi-level coordination
 - Strategic convergence
 - Cooperation: outward dimension of S3
 - Evaluation of impacts (RIS, Future Investments)
 - Upfront articulation of policies

To conclude... and to continue

- RIS 3 : Innovation and Research at regional level
- Role of public policies / market: beware the « politics of pendulum »
- S3 and cohesion policy objectives
- Toward S3... step by step
