

Puglia Region's experience on pre-commercial-procurement

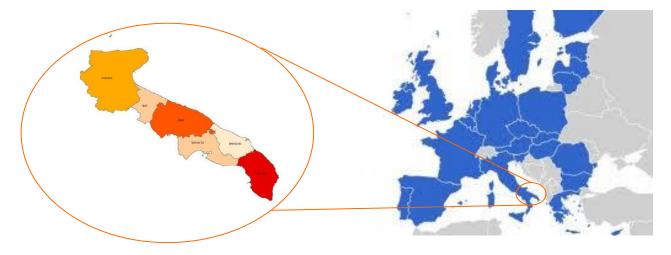

Lithuanian Academy of Sciences - Vilnius October 30, 2015

Marco Di Ciano

InnovaPuglia S.p.A. Servizio Ricerca e Innovazione

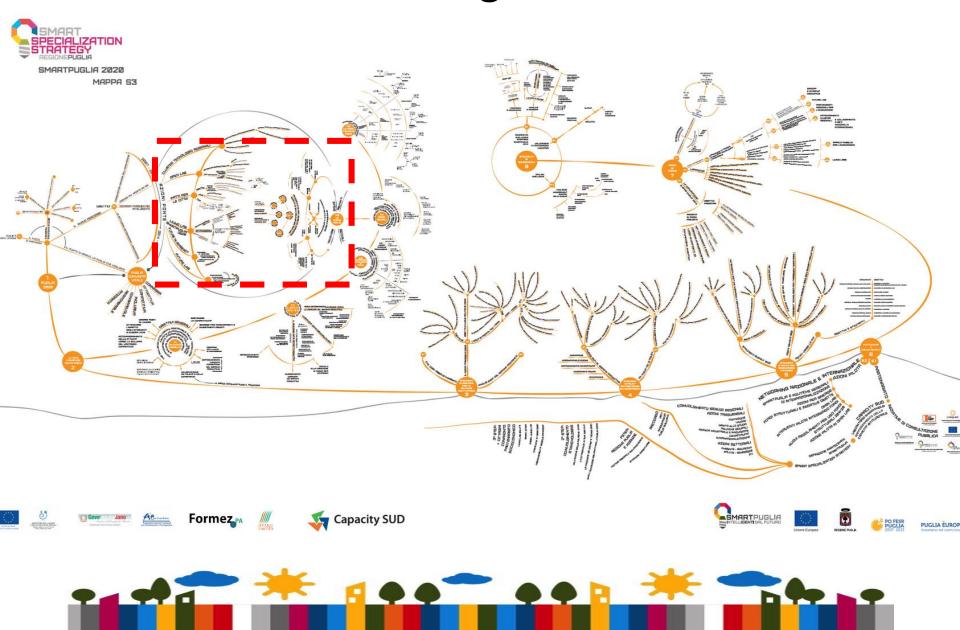

Policy maker governance: Apulia Region – Economic Development, Employment and Innovation Department-Industrial Research and Innovation Service

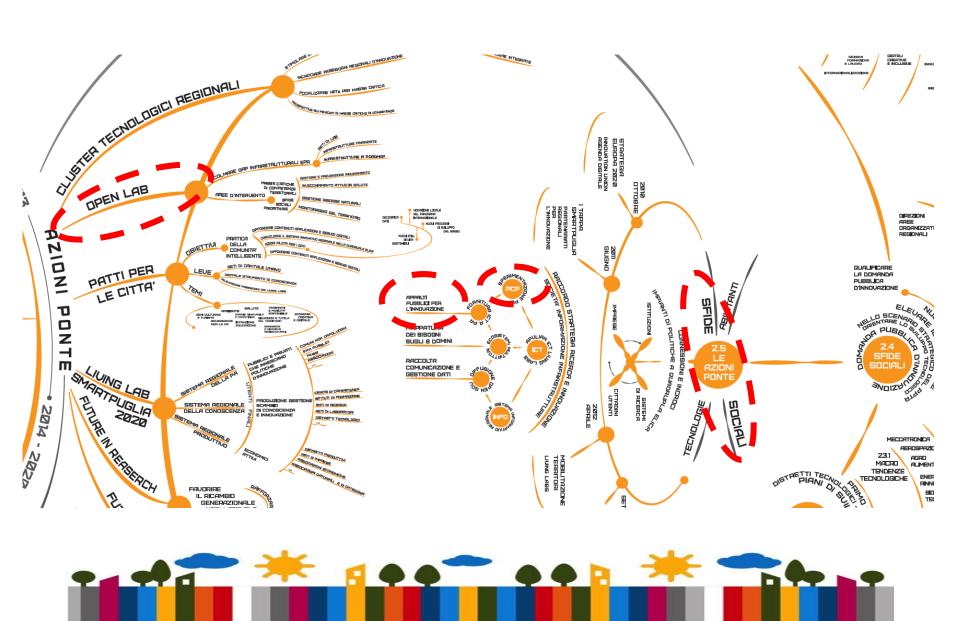

Technical assistance: InnovaPuglia - In house company of Apulia Region - Technical Support Division

Smart Puglia 2020

Smart Puglia 2020

Smart Puglia 2020

OpenLabs

- promote innovative ecosystem with the aim of testing new technologies and services, under real operating conditions in order to assess and experiment their feasibility and functionality through specific prototyping phases
 - Needs Assessment (survey on needs to qualify the public demand for innovation)
 - Defining functional specifications
 - Implementation of innovation procurement
- Sustainable cities and territories
 - Water resources, monitoring and land management, air pollution e health risk assessment
- Health, well-being and sociocultural dinamics
 - New tools for advanced and early diagnosis, active and healthy aging

Water sector

- Water pipelines (potable and sewage) counts around 42.000 Km. 185 are the plants for waste water depuration
- Over 4 million residents served by Acquedotto Pugliese (the regional water utility)
- Integrated water system in all the phases (the capture, purification and distribution of drinking water, sewerage services and waste water treatment)
- Several water stakeholders coordinated by the Regional Department for Environment
 - Acquedotto Pugliese, The River basin Management Authority of Puglia, The Regional Agency for environmental protection, National Research Council – Water branch, The Mediterranean Agronomic Institute of Bari (CHIEAM Bari), The Euro-Mediterranean Centre on Climate Change, Puglia Water Authority, Universities and regional clusters.
- Puglia region is involved in European project related to water topics (Demoware,
 Water PIPP) and strategic initiatives (EIP on Water)
- Identification in S3 (Smartpuglia 2020) a specific societal challenge on "Sustainable cities and territories" (water resources)

DPENLABS Pilot Procurement Involved Actors

- Leading Public Administration
 - Puglia Region, Research and Innovation Service -> Supervising Authority
- Implementing body
 - ICT in-house company InnovaPuglia -> Research and technical Assistance
- Contracting Authority
 - Puglia Region, Programming and Purchase Service -> Administrative
 Authority
- Water Domain Referent
 - Aquedotto Pugliese -> Regional water utility
- Bidder competitor
 - Economic operators -> Interested bodies with potential solutions

LABS Water resources and challenges focus

- Pilot action in the field of water resources with a focus on
 - Challenge A: Adaptive Water Management platforms
 - Challenge B: Treatment, reduction and reuse of sludge in sewage treatment of urban waste water
 - Challenge C: Detection and monitoring of water leakage in primary and distribution pipelines

Multi-stage procedure

Phase 0: Preliminary market consultation

- Phase 1: Feasibility Study
- Phase 2: Technical Design
- Phase 3: Prototype and Testing

Multi-stage procedure

■ Phase 0: Preliminary market consultation — call for expressions of interest

- Phase 1: Feasibility Study
- Phase 2: Technical Design
- Phase 3: Prototype and Testing

OPENLABS Procurement procedure

Multi-stage procedure

■ Phase 0: Preliminary market consultation — call for expressions of interest

Phase 1: Feasibility Study

Phase 2: Technical Design

Phase 3: Prototype and Testing

call for tender

■ Phase 0: Preliminary market consultation — call for expressions of interest

OPENLABS Preliminary market consultation

- According to Directive 2014/24/EU (art. 40)
- launch a call for expression of interest [O.J. N. 49 of 09-04-2015]
- Inform the market in advance in an open and transparent approach
- Focus on the need for innovation
- Start a debate on the state of the art technologies and the potential of innovation / market
- Start a discussion on functional requirements
- Assess the possibility to carry out specific activities of R & D

LABS Preliminary market consultation outcomes

- Nearly 80 Enterprises and Research centers involved
- Two days of collective hearings shared on the three different challenges
- Launch of on-line forum for data gathering and minutes sharing among the participants
- Increased needs/challenge description quality (functional, usage, maintenance specification)
- Decision to proceed with a PCP tender targeting two of the three challenges (B and C)

- Phase 1: Feasibility Study
- Phase 2: Technical Design
- Phase 3: Prototype and Testing

call for tender

- Challenge B Call for tender to the award of a pre-commercial procurement action under article 19 co.1 lett. f) of Italian D.Lgs.n. 163/2006 to acquire services of industrial research and experimental development for a new system for minimizing the production, improve quality and promote the reuse of sludge treatment processes and treatment of urban waste water. [O.J. N. 112 of 06-08-2015]
- Challenge C Call for tender to the award of a pre-commercial procurement action under article 19 co.1 lett. f) of Italian D.Lgs.n. 163/2006 to acquire services of industrial research and experimental development for a new device for locating water losses of pipelines, monitoring the state of the pipes and the geo-referenced survey of the pipelines in urban water distribution networks. [O.J. N. 112 of 06-08-2015]

Supplement to the Official Journal of the European Union

Regione Puglia — Area Organizzazione e Riforma dell'Amministrazione — Servizio Programmazione Acquisti

Documento inviato: Jul 24, 2015 12:00:00 AM

Titolo: Italia-Bari: Servizi di ricerca e sviluppo sperimentale

Il bando/avviso inviato per la pubblicazione sul supplemento alla Gazzetta ufficiale dell'Unione europea (GU/S) sarà disponibile sulla banca dati TED (Tenders Electronic Daily) a decorrere da oggi alle 09.00, ora dell'Europa centrale.

Dopo tale ora, fare clic su 266320-2015

per consultare il bando/avviso pubblicato.

TED è la banca dati dell'Unione europea relativa agli appalti pubblici. È possibile accedere alla banca dati su http://ted.europa.eu/

NOTA

OBBLIGO D'INVIO DELL'AVVISO RELATIVO AGLI APPALTI AGGIUDICATI:

Si fa presente che, conformemente alle direttive che coordinano le procedure di aggiudicazione degli appalti pubblici, le amministrazioni aggiudicatrici che hanno aggiudicato un appalto pubblico devono inviare un avviso in merito al risultato della procedura di aggiudicazione entro il termine fissato in dette direttive. Tali direttive sono disponibili sul sequente sito web: http://ted.europa.eu/.

Attenzione, questo messaggio è generato automaticamente. Non usare la funzione 'Reply' né questo indirizzo e-mail per contattare l'Ufficio delle Pubblicazioni. Per qualsiasi domanda, la preghiamo di contattarci utilizzando il link fornito nel sito Internet TED.

Challenge B - new system for minimizing the production, improve quality and promote the reuse of sludge treatment processes and treatment of urban waste water

http://www.sistema.puglia.it/SistemaPuglia/openlabs -> Bando Trattamento fanghi (B)-> Vai alla Pagina del Bando

http://www.sistema.puglia.it/SistemaPuglia/openlabs -> Bando Rilevamento perdite reti idriche (C) -> Vai alla Pagina del Bando

Challenge C

Challenge B

- Phase 1 Feasibility Study
 - Feasibility Study prepared in accordance with the procedures set out in the invitation for tender

(solution idea, compliance to functional and performance requirements, consistency and quality of work in the project organization, etc.)

- Phase 2 Technical Design
 - Technical design; development of business plan; economic bidding;

(technical elements of the project to innovate and improve the scope of operation, technical elements of the project to ensure the environmental impact, etc.); (sustainability, strategic and commercial vision); (economical bid value, most economically advantageous tender, etc.)

- Phase 3 Prototype and Testing
 - Research/Prototyping/Testing for 12 solar months form the contract signature.

(at the end of the testing stage a final report for the validation of the prototype will be subject to commission validation)

- Up to twelve best bids in the ranking list will be awarded at the end of Phase 1
- Up to four best bids in the ranking list will be awarded at the end of Phase 2
- Prototype and Testing contract plus IPR contract for eventual exploitation through patents or other forms of industrial property rights protection will be signed with the successful bidders
- The total amount committed by the Puglia Region for the award of PCP challenge B + challenge C is 5,6 MEuro excluding VAT
- Deadline 28/09/2015 at 14:00 local time (Italy)
- Received bids are now under evaluation

Thank you
