Technical Meeting - Seville, 29th March 2017

S3P AGRIFOOD
Thematic Partnership on
TRACEABILITY AND BIG DATA

Governance & Funding

Esperanza Perea Acosta
internacional.viceconsejeria.capder@juntadeandalucia.es
Technical Counsellor – Viceministry of Agriculture, Fisheries and Rural Development of Andalusian Government
The Governance and Management Framework regulates decision making and operation of the Interregional Partnership on “Traceability & Big Data”, as well as the roles and responsibilities of partners.

“Management is doing things right while Governance is doing the right things”
The Thematic Partnership on “Traceability & Big Data” will encourage the creation of an ecosystem to support innovation and digitisation of the agri-food sector in Europe.
The Interregional Thematic Partnership

Regional Partnership n
Regional Partnerships

- **PUBLIC ADMINISTRATION**
  - Regional/National Governments

- **RESEARCH**
  - Public and private research bodies, science and technology parks, universities

- **CIVIL SOCIETY / USERS**
  - Consumers' and users' associations

- **BUSINESS**
  - Large firms, SMEs, clusters, business organisations, etc

Composition
Common foundations for a data-driven agri-food include:

- More complete and trusted information available to consumers.
- **Smart information systems** for companies and the public administration.
- **Territorial cooperation** as basis for the transfer of technology and research outcomes, experiences, research staff and between companies, in those regions that are interested in this topic.
- The shared value that will generate **added value** in all stages of the chain that will have an impact on the rest of phases and in society and the territories at large.
- Improvement of **business competitiveness**, resilience and sustainability and creation of **new businesses**.

Interreg Europe project proposal

Co-finance: 85% (public authorities) – 75% (non-profit organisations)

Two-phase project: Phase 1 (1-3 years) + Phase 2 (2 years)

Partners must:
- Produce an **Action Plan**
- Set up a regional **stakeholder group**
- Participate in Interreg Europe **Learning Platform**

3rd Call (from 1st March to 30 June 2017)
Overall objective
To support the S3P Thematic Partnership on Traceability & Big Data

Aims
To promote the **exchange of experience** both at regional and interregional level to improve regional structural funds and policy instruments related to RIS3 and the digitisation of the agri-food sector value chains

Activities foreseen:
- Synergies with other projects, initiatives and platforms
- Mapping of regional stakeholders
- Exchange of experiences
- Study visits
Interreg Europe project proposal partnership

Recommended max. 10 partners

Partners that have already confirmed their interest

- Spain. Andalusia (Lead Partner)
- Italy. Emilia Romagna (as Co-Lead of Thematic Partnership)
- Hungary. South Transdanubian

Other regions have also expressed their interest

Request to the Interreg Europe Joint Secretariat still pending on the possibility of more than one region per country
• Deadline to submit your **expression of interest** in the Interreg Europe project: **15th April**
• Preparation of Interreg Europe **project application form** (from now **until 30th June**)
• Deadline for the receipt of comments to the **Governance and Management Framework** document: **1st May**
• Submission of **Interreg Europe project** by **30th June**
