Joint Research Centre

Workshop on Smart Specialisation on Heating and Cooling

Johan Carlsson

Brussels, 30 May 2018

Workshop structure

Two workshops:

May 30 & May 31 morning

Heating and cooling technologies and planning

- heating and cooling technologies, tools and methods for a better energy planning
- examples of advanced cities on the implementation of flagship H&C initiatives
- examples from regions on the implementation of TO1 and TO4 related projects
- experiences from setting up energy partnerships

Workshop structure

Two workshops:

May 31 afternoon & June 1 morning

Heating and cooling financing

- financial mechanisms to develop H&C projects including EBRD, EIB, EFSI, ESIF and ERDF
- energy business models — ESCOs and EPC
- experience from cities/regions on funding initiatives on DHC and buildings
- commercial bank funding

Workshop structure

Workshop lunches

May 30-31
