Thematic Smart Specialisation Partnership Monitoring Progress Report

This report is presented to the relevant Working/Steering Committee.

The report is updated every six months.

Confidentiality:

The management report (section I) and progress report (section II) will be made available to the public via your Partnership's web page.

The part on self-assessment is confidential.

Based on the monitoring results, the European Commission will decide on the following term's support.

* Reporting period

July - December 2020

* Please select the name of your partnership

Geothermal Energy

*** Start date of your partnership**

January 2019

*** Partnership's webpage**<https://s3platform.jrc.ec.europa.eu/partnership-geothermal-energy>

I. Management report

*** Please provide the executive summary and the objectives of your partnership**

Geothermal energy is the thermal energy generated and stored into the Earth. It is considered a renewable source, as the huge amount of thermal energy produced and stored into the underground constantly flows to the crust's surface, through groundwater and steam flowing through cracks, faults and artificial boreholes. These properties make geothermal energy a secure and stable source over time, which can be extracted and used for power generation, direct heat uses, or exchanged with shallow formations by means of ground source heat pumps (GSHP).

European Regions have created the S3 EUGEOREG Partnership to join their efforts in improving the competitiveness and innovative potential of the geothermal energy sector by addressing technological, social and environmental constraints.

*** Please provide the list of leading regions**

Tuscany (IT); Scotland (UK)

*** Please provide the list of participating regions.**

*If possible, please follow this format: "Name of the region in English (Country abbreviation), NUTS code".
e.g.: Lapland (FI), FI1D7*

Toscana (IT), IT11
 Açores (PT), PT200
 Asturias (ES), ES120
 Scotland (UK), UKM
 Northern Ostrobothnia (FI), FI1D6
 East Netherlands (NL), NL2
 Grand Est (FR), FRF

Please provide the list of interested regions or other entities (other than national /regional authorities)

Lombardy (IT); Canary Islands (ES); City of Groningen (NL); Zafer Development Agency (Turkey); Borsod-Abaúj-Zemplén County Development Agency (HU); Nouvelle Aquitaine (FR); Bavaria (DE); South Holland Province (NL); Basque Country (ES)

Please provide an overview of the **working areas** of your partnership

II. Progress report

Innovative results

Please describe innovative results and achievements that could be attributed to the partnership (specific examples of results vs. objectives)

None in the second semester 2020

Tangible short- and medium-term socio-economic impacts achieved or expected (specific examples)

The partnership wants to generate the following impacts:

- increase the adoption of geothermal solutions for heating and cooling
- increased acceptance of use of geothermal resources by local communities
- identification of co-investment areas for technological development of sustainable geothermal systems

Inter-regional and inter-partnership collaborative results

Additional results obtained from working with other partnerships under the thematic S3 Platforms (specific examples)

None in the second semester 2020

Evaluation of the involvement of relevant business sector (clusters, SMEs, business associations, chambers of commerce, Digital Innovation Hubs (DIHs), etcetera) in the Partnership activities (specific examples)

None in the second semester 2020

Evaluation of whether the level of inter-regional cooperation is sufficient to potentially provide practical and relevant socio-economic impacts (specific examples)

The partnership cannot yet provide a feedback to this question. The COVID-19 pandemic and the lack of financial support for inter-regional cooperation strongly affected the implementation of partnership activities

New activities

Involvement of regions from EU13 Member States in the Partnership, in particular with respect to scoping, mapping and/or matchmaking. In addition, justification should be provided if no EU13 regions are involved

Activities of the partnership in 2020 have been limited due to the COVID-19 pandemic

Involvement of regions/countries from outside of EU28 Countries. (Number of participants from non-EU countries (specify their contribution))

None in the second semester 2020

Advancement and promotion of the Partnership through publications and other communication/outreach activities (number of outreach activities that resulted from the partnership)

None in the second semester 2020

Activities and projects with partnerships working under other S3 Thematic Platforms (AgriFood, Energy and Industrial Modernisation)

None in the second semester 2020

Your Partnership and the UN 2030 Sustainable Development Goals (SDGs)

The EU has a strong position when it comes to sustainable development and is also fully committed to be a frontrunner in implementing the UN's 2030 Agenda, together with its member countries and regions. Many interregional partnerships under the thematic S3 Platforms contribute strongly to the attainment of these 17 goals.

Please indicate to which Sustainable Development Goals and to what extent your thematic Partnership contributes?
