

SMART SPECIALISATION FOR THE RECOVERY

Smart Specialisation for Sustainable Development Goals

Delivering Global Agenda at local and regional level

Monika Matusiak
Team Leader, Smart Specialisation – Global Outreach, Joint Research Centre

15 April 2021

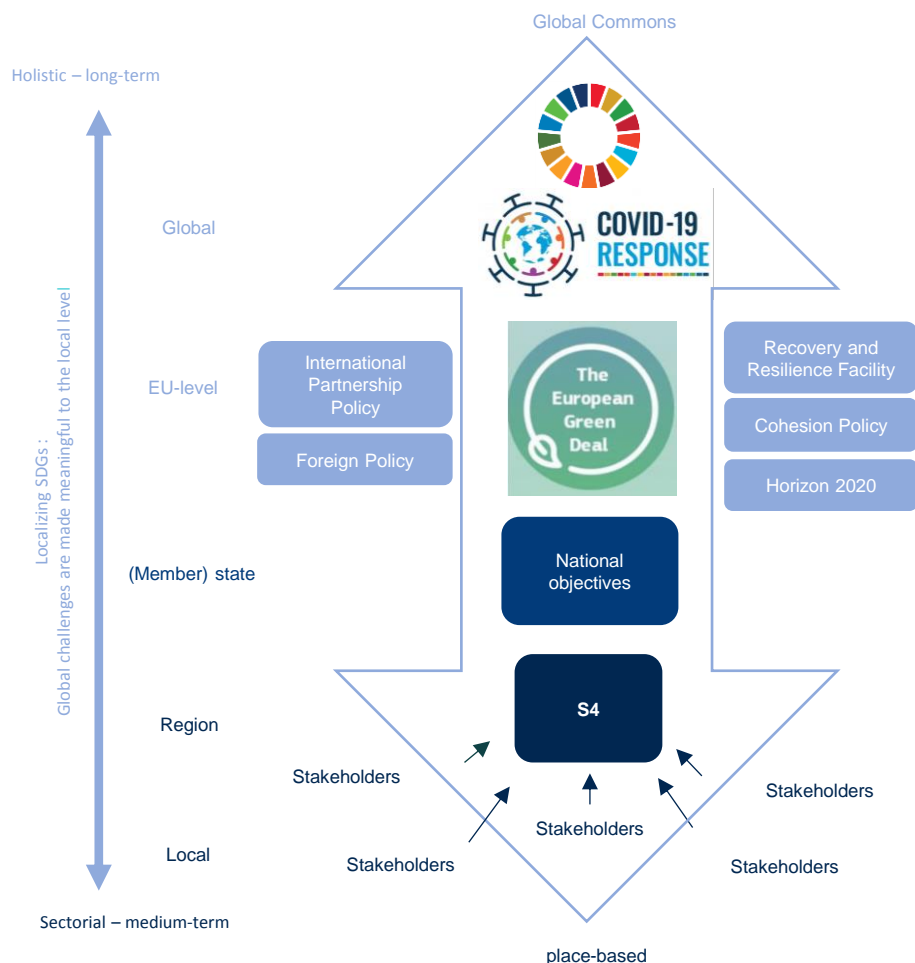

#SmartSpecialisation

Smart Specialisation for SDGs – key messages

- 🌐 Europe is rethinking the economic growth – towards ‘***growth with values***’, within the planetary boundaries and leaving no one behind
- 🌐 We committed to the Global Agenda - a huge collective effort needed at **different territorial levels** and throughout the policy spectrum
- 🌐 Smart Specialisation Strategies for SDGs are **localised Science, Technology and Innovation Roadmaps** to fasten progress, they are already being adopted and we know how to help

How Smart Specialisation can help deliver SDGs

Duality of directionality

New definition of innovation

Innovation is no longer considered only as a means to achieve economic growth but also to find solutions to societal and environmental challenges. This new type of innovation will be a basis for a different type of competitive advantage and creation of markets to upscale new green technologies and solutions.

New principles

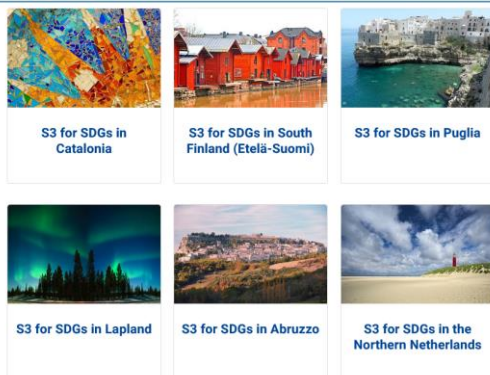

- Greater inclusivity
- Forward-looking orientation
- Rethinking the process and our methodology
- Policy coherence

Smart Specialisation for SDGs – foundations to piloted methodology

through science

From practice

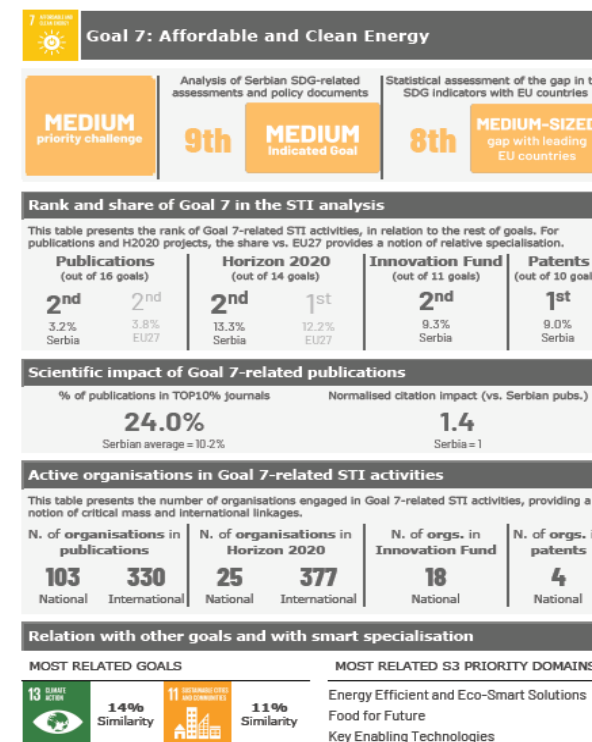

Regional inspirations

26 cases in Europe and beyond

and cooperation

Serbia

Ukraine

Tunisia

EU pilot
