THE EUROPEAN COMMISSION
Through joint action between DG REGIO, DG ENV, and the DG Joint Research Centre.

MEMBER STATES AND REGIONS
lead the implementation of S3 innovation and energy-related priorities in joint cooperation with business, research, education sectors and civil society.

The S3PEnergy is the space where Member States, regions and energy stakeholders receive support for an optimal and effective uptake of European Structural and Investment Funds for sustainable energy.

The S3PEnergy promotes activities at national, regional and local levels, for achieving a shared vision on knowledge-based energy policy, with the aim of better alignment of regional and local activities through the identification of the technologies and innovative solutions.

The S3PEnergy allows its members to share experiences and activities on innovation and energy-related policies and establish partnerships between regions and Member States that have identified renewable energy technologies and innovative energy solutions as priorities in their S3.
