

Nutritional Ingredients Partnership

motivated to join the European Green Deal Call

Area 6: Farm to Fork, Subtopic F (healthy diets)

Nutritional Ingredients Partnership

Created in 2018, our Partnership regroups the strengths of 9 different European regions with an aligned research and innovation strategies for smart specialisation (RIS3).

The Partnership is composed of 7 innovation clusters and 2 Regions authorities. Together representing >2000 agri-food SMEs and >200 RTOs. All clusters are supported by their respective regional authorities.

Objectives

The aim of the Partnership is to develop an interregional collaboration between agri-food and bio-economy actors (industries, academics, cluster organizations and relevant research and technology organizations), facilitating the uptake and cross-over of innovation in the field of functional/nutritional ingredients and related application sectors, stimulate cross-sectoral collaboration and accelerate the development and commercialisation of novel and/or improved ingredients in any relevant application field identified by the Partnership.

What can we bring to a Green Deal consortium?

The Partnership is composed by clusters and regional authorities which contribute to the region's sustainable growth by developing innovation and knowledge. All partners are expert of the agri-food sector and have a good comprehension of the industries' needs.

The Partnership can play a crucial role in:

- bringing a wide quadruple helix network
- guiding the consortium with concrete sector's needs
- mobilizing industries
- communication and dissemination

Focus Area and Subtopic

The Partnership is relevant to be integrated into the **Area 6: Farm to Form**

LC-GD-6-1-2020: Testing and demonstrating systemic innovations in support of the Farm-to-Fork Strategy

Subtopic F: Increasing the share of citizens that adhere to healthy sustainable diets, including among the most deprived and vulnerable groups

Contact person

For more information please contact Yuan Chai (yuan.chai@wagralim.be), International Affairs Officer at Wagralim, the agri-food innovation cluster of Wallonia, Belgium;

Wagralim is representing the Walloon Region as the lead of the S3 Nutritional Ingredients Partnership.
